

THE CONNECTION

To thoroughly prepare players, physically and mentally, and to help reduce soft tissue injuries

PHYSICAL

Warm Up

Dynamic Movement

Set up a 20x20 playing area. The game starts with one tagger who moves around the area trying to tag players. When tagged they link arms/hands with the tagger to create a line (connection) of taggers. Keep line numbers to a maximum of three players, then split them off into mini connections. The connections must attempt to catch all runners, by working together through effective communication and strong counter balance to move as a unit.

VARIATIONS AND PROGRESSIONS

Each practice can be varied to adapt to the needs of players. Simple changes can increase or decrease the challenge. Examples such as changing the rules, the size of the area, overloading the advantage of one team, varying the focus, or setting team challenges will keep players motivated and all attribute to good coaching methodology.

LEARNING OUTCOMES

- The importance of warming up correctly and getting into good habits to prepare body and mind for performing well.

KEY FACTORS

- Ensure drinks are taken regularly throughout the warm up phase
- Good communication
- Increase intensity
- Start gradually

FOCUS AREAS

- All athletes need to warm up before participating in practices and games.
- Allow players to hydrate to maintain efficiency levels.
- Increase intensity to raise heart rate and muscle temperature.
- Should always be progressive.
- Warm ups should be fun and realistic/relevant to the main session when possible.

THE CONNECTION

To thoroughly prepare players, physically and mentally, and to help reduce soft tissue injuries
