

RECEIVE ON ONE, PLAY WITH OTHER

Develop basic passing technique with no defensive pressure

TECHNICAL

Passing

First Touch

Players practice in pairs and pass to each other over a short distance with the following sequence.

Player 1 passes to Player 2 who receives using the inside of the foot and pushes the ball across and slightly in front of the body. Player 2 passes back to Player 1 using the inside of the opposite foot that they used to control the ball.

Both players continue with the sequence pattern.

Encourage players to use both feet and increase distance between the players.

VARIATIONS AND PROGRESSIONS

Each practice can be varied to adapt to the needs of players. Simple changes can increase or decrease the challenge. Examples such as changing the rules, the size of the area, overloading the advantage of one team, varying the focus, or setting team challenges will keep players motivated and all attribute to good coaching methodology.
