TECHNICAL

Fun Games

Foundation Football

Set up a 20x20 playing area or adapt to suit the number of players.

Arrange players with a ball each in two lines to create a middle channel.

One additional player starts at the top of the channel.

The top of channel player attempts to run through the channel without being hit by a ball.

Side players must pass the ball along the ground and with correct technique to count as a hit.

When player gets through, they swap with a line player.

Repeat.

To increase difficulty, the player running through the channel can do so with a ball at feet (dribble).

VARIATIONS AND PROGRESSIONS

Each practice can be varied to adapt to the needs of players. Simple changes can increase or decrease the challenge. Examples such as changing the rules, the size of the area, overloading the advantage of one team, varying the focus, or setting team challenges will keep players motivated and all attribute to good coaching methodology.
