

DRIBBLE AND COLLECT

To introduce the basic concepts of the game in a fun and positive learning environment

TECHNICAL

Fun Games

Foundation Football

Set up a 20x20 playing area or adapt to suit the number of players.

Arrange players into even groups of no more than three players.

Place three balls in a line in front of each group.

The first player in each line runs to collect the far ball and dribbles it back to their starting place at the front of the line.

The player returns to the second ball and dribbles back, then the closest ball and dribbles back to assemble all balls at the front of the line.

The player goes to the back of the line.

The second player dribbles and returns a ball to the furthest point, then the second and finishes with the closest point.

The third player collects the balls as the first player did.

First to finish wins.

VARIATIONS AND PROGRESSIONS

Each practice can be varied to adapt to the needs of players. Simple changes can increase or decrease the challenge. Examples such as changing the rules, the size of the area, overloading the advantage of one team, varying the focus, or setting team challenges will keep players motivated and all attribute to good coaching methodology.

LEARNING OUTCOMES

- How to keep close control of the ball.
- How to use different parts of the foot.
- Learn how to move the ball at different speeds.
- Players begin to understand spatial awareness.

KEY FACTORS

- Always encourage players
- Close control of the ball
- Enjoyment of the session
- Ensure the session is relevant and age appropriate
- Space awareness within playing area

FOCUS AREAS

- Ensure every player is taking part in the session.
- Ensure the session is fun and that players are enjoying playing the game.
- Facilitation of the practice is more important than 'coaching' the players – let the game be the teacher.
