

DOMES AND DISHES

To thoroughly prepare players, physically and mentally, and to help reduce soft tissue injuries

PHYSICAL

Warm Up

Dynamic Movement

Set up a 15x15 playing area.

Place a quantity of cones around the area, half the correct way up and half upside down.

Two teams play against each other with the object of Team 1 (Dome Chasers) moving around turning all the cones to face upwards like Domes.

Team 2 (Dish Runners) move around making sure all cones are facing downwards like Dishes.

Both teams move around at the same time and have a set period (1-2 minutes) to change as many cones as they can.

VARIATIONS AND PROGRESSIONS

Each practice can be varied to adapt to the needs of players. Simple changes can increase or decrease the challenge. Examples such as changing the rules, the size of the area, overloading the advantage of one team, varying the focus, or setting team challenges will keep players motivated and all attribute to good coaching methodology.

LEARNING OUTCOMES

- The importance of warming up correctly and getting into good habits to prepare body and mind for performing well.

KEY FACTORS

- Ensure drinks are taken regularly throughout the warm up phase
- Good communication
- Increase intensity
- Monitor performance of players - first touch, movement and general body language/focus
- Start gradually

FOCUS AREAS

- All athletes need to warm up before participating in practices and games.
- Allow players to hydrate to maintain efficiency levels.
- Increase intensity to raise heart rate and muscle temperature.
- Should always be progressive.
- Warm ups should be fun and realistic/relevant to the main session when possible.
